# Setting Up Web Services

# Adding a client to Sentinel

Go to the clients home page in Sentinel

Select SSO Autoconfigure

Make a note of the client alias that is required.

## Warning

This will autoconfigure the client with the Tranquil SSO Defaults.  
The alias in Keycloak must match 'contract-scaffolding-ltd'  
Link?

Cancel [No]

Continue [Yes]

Now log into Keycloak Admin and go to Organizations > Create Organization
